

# Crack-the-Code®

## K-5 Enrichment Program

Crack-the-Code® is a fun and productive way to help students stay ahead of the class and excel in school by developing strong critical-thinking skills. Kids meet after school one day per week to expand both reasoning and communication skills.

Our group challenges expand a student's knowledge of science, social studies, geography, history, vocabulary, spelling, and math facts. Crack-the-Code® kids learn to look at problem solving through different perspectives and overcome obstacles using creativity. At Crack-the-Code® kids experience success within each lesson plan, build confidence, and realize their potential.

## After-School Program:

- ✓ Program: 12 Weeks
- ✓ Where: My school
- ✓ When: 1 day per week after school
- ✓ Length: 1 hour

The Crack-the-Code® after school program is offered at participating elementary schools and community venues. Call your local Omega Learning® Center for program dates and registration deadlines. Find a center near you at [OmegaLearning.com](http://OmegaLearning.com).

## 21st Century Learning

Crack-the-Code® activities encourage cognitive, as well as social, development and can equip students with the tools they need to solve real-life problems. Kids explore independent thinking and group collaboration.

Whether in school, work, or in social relationships, the ability to analyze a problem and map out possible solutions is one of the most valuable skills anyone can learn. The benefits to learning these skills in elementary school can prove immeasurable.

After school parents want to unplug their kids from technology for an hour of physical, creative, and collaborative play. Crack-the-Code® prepares kids with a strong foundation of critical-thinking skills they can apply to 21<sup>st</sup> Century challenges.

## Secret Codes are Cool!

Mystery solving is wildly popular in school classrooms right now, so your student is sure to be ecstatic about this new "top secret" after-school program, Crack-the-Code®. Kids love solving clues and communicating in secret codes. So, we combined these activities in an after-school program that's fun and educational.

## CrackTheCode.Shop

## Creative Competition

Children collaborate in action-packed group activities to solve clues, using only the materials in their Clues Crate. With great anticipation, kids look forward to Crack-the-Code® each week because they experience a new adventure, enjoy spirited competition, and spark their imagination. Our kids form new teams each week, introducing them to varying perspectives and new friendships!

## AdvancED Accredited

The Crack-the-Code® after-school program was created by the Omega Learning® Center franchise system, which is AdvancED accredited nationwide. AdvancED is the world's largest education community, engaging 32,000 public and private schools, 4 million educators, and 20 million students across the US and 70 other countries. Omega Learning® is the only tutoring franchise system that has achieved this national AdvancED accreditation.
